

Menopause

Supplement 2: Health economics

NICE guideline TBC

Health economics

November 2023

Draft for consultation

*These supplements were developed by
NICE*

Disclaimer

The recommendations in this guideline represent the view of NICE, arrived at after careful consideration of the evidence available. When exercising their judgement, professionals are expected to take this guideline fully into account, alongside the individual needs, preferences and values of their patients or service users. The recommendations in this guideline are not mandatory and the guideline does not override the responsibility of healthcare professionals to make decisions appropriate to the circumstances of the individual patient, in consultation with the patient and/or their carer or guardian.

Local commissioners and/or providers have a responsibility to enable the guideline to be applied when individual health professionals and their patients or service users wish to use it. They should do so in the context of local and national priorities for funding and developing services, and in light of their duties to have due regard to the need to eliminate unlawful discrimination, to advance equality of opportunity and to reduce health inequalities. Nothing in this guideline should be interpreted in a way that would be inconsistent with compliance with those duties.

NICE guidelines cover health and care in England. Decisions on how they apply in other UK countries are made by ministers in the [Welsh Government](#), [Scottish Government](#), and [Northern Ireland Executive](#). All NICE guidance is subject to regular review and may be updated or withdrawn.

5

6 **Table 1: Number of economic studies identified by review topic**

Review topic	Number of economic studies included in the review
Topic A: What is the effectiveness of cognitive behavioural therapy for managing symptoms associated with the menopause?	2
Topic B1: What is the effectiveness of treatments such as local oestrogen, ospemifene, prasterone and transvaginal laser therapy for managing genitourinary symptoms associated with the menopause?	1

1 Excluded studies

2 Excluded studies following full text review

3 **Table 2: List of excluded studies**

Author and Year	Title and Journal	Reason for exclusion
Anonymous 2014	Anesthetic Injections Into the Stellate Ganglion for the Treatment of Hot Flashes in Women: A Review of Clinical and Cost-Effectiveness and Guidelines	Not relevant to any review question
Anonymous 2019	Effectiveness of a Multi-Dimensional Group Counseling Program Based on the GATHER Approach on the Quality of Life in Surgically Menopausal Women Journal of menopausal medicine	Not an economic evaluation
Brown 2006	Transdermal hormone replacement therapy patches for women with postmenopausal symptoms: economic analysis of short-term use	Not relevant to any review question
CADTH 2014	Anesthetic injections into the stellate ganglion for the treatment of hot flashes in women: a review of clinical and cost-effectiveness and guidelines Ottawa: Canadian Agency for Drugs and Technologies in Health (CADTH)	Not relevant to any review question
Carbonell-Baeza 2015	Cost-effectiveness of an exercise intervention program in perimenopausal women: the Fitness League Against MENopause COst (FLAMENCO) randomized controlled trial. BMC public health	Not relevant to any review question
DiBonaventura 2013	Burden of vasomotor symptoms in France, Germany, Italy, Spain, and the United Kingdom International Journal of Women's Health	Costing study
Dymond 2019	PIH11 ECONOMIC EVALUATION OF OSPEMIFENE FOR THE TREATMENT OF VULVOVAGINAL ATROPHY IN THE UNITED KINGDOM Value in Health	Conference abstract. Full economic evaluation included in review
Faught 2018	Adherence, persistence, and healthcare costs associated with ospemifene compared with local estrogen therapy among commercially insured women in the United States Menopause	Costing study
Goranitis 2017	Aerobic exercise for vasomotor menopausal symptoms: A cost-utility analysis based on the Active Women trial. PLoS one	Not relevant to any review question
Grant MD 2015	Menopausal symptoms: comparative effectiveness review of therapies Agency for Healthcare Research and Quality (AHRQ)	Not an economic evaluation
Hesham 2019	Cost-effectiveness of vaginal estrogen and selective estrogen receptor modulator therapy vs. fractional vaginal laser for treatment of genitourinary syndrome of menopause Female Pelvic Medicine and Reconstructive Surgery	US health care payer perspective taken
Kolu 2015	Cost-effectiveness of physical activity among women with menopause symptoms: findings from a randomised controlled trial. PLoS one	Not relevant to any review question
Lang 2017	Fractional CO2 laser of the vagina for genitourinary syndrome of menopause: Is the out-of-pocket cost worth the outcome of treatment?. Lasers in surgery and medicine	Not an economic evaluation
Mewes 2013	Cost-effectiveness of cognitive-behavioral therapy and physical exercise for alleviating treatment-induced menopausal symptoms in breast cancer patients Value in Health	Conference abstract. Full economic evaluation included in review
Moyneur 2018	Health care costs associated with depression, anxiety, and urinary track infection in women diagnosed with vulvovaginal atrophy Menopause	Costing study
NIHR 2013	Ospemifene for vulvo-vaginal atrophy in postmenopausal women	Not an economic evaluation
Sarrel 2014	Incremental direct and indirect cost of untreated vasomotor symptoms (VMS) Pharmacoepidemiology and Drug Safety	Costing study
Shyu 2012	Health-related quality of life and healthcare resource utilization in Taiwanese women with menopausal symptoms: a nation-wide survey. The journal of nursing research : JNR	Costing study
Sills 2022	Predbezne modelovani odchytky nakladu pro porovnani autologni intraovarialni plazmy bohate na trombocyty a standardni hormonalni substitucni terapie pri menopauze, Preliminary cost variance modeling to compare autologous intraovarian platelet-rich plasma vs. standard	Costing study

	hormone replacement therapy for menopause management Ceska gynecologie	
Spacirova 2019	Cost-effectiveness of a primary care-based exercise intervention in perimenopausal women. The FLAMENCO Project. Gaceta sanitaria	Not relevant to any review question
St Martin 2019	A cost-effectiveness analysis of the intravaginal CO2 laser therapy compared to standard medicaltherapies for genitourinary syndrome of menopause Female Pelvic Medicine and Reconstructive Surgery	US health care payer perspective taken
Teitsson 2015	Cost-effectiveness of conjugated estrogens/bazedoxifene for the treatment of vasomotor symptoms in the United States Value in Health	US health care payer perspective taken
Verbeek 2019	PCN77 COST-UTILITY, COST-EFFECTIVENESS, AND BUDGET IMPACT OF INTERNET-BASED COGNITIVE BEHAVIOURAL THERAPY FOR BREAST CANCER SURVIVORS WITH TREATMENT-INDUCED MENOPAUSAL SYMPTOMS Value in Health	Conference abstract.
Wallace 2020	A cost-effectiveness analysis of vaginal carbon dioxide laser therapy compared with standard medical therapies for genitourinary syndrome of menopause-associated dyspareunia. American journal of obstetrics and gynecology	US health care payer perspective taken
